

## The Magic of Christmas

Pajamas, soft blankets, and a good book is a perfect way to end the day. The Kittatinny Interact Club and third grade students from Sandyston Elementary and the Marion E. McKeown Elementary School collected PJ's, books and made blankets to donate to local homeless shelters. What a thoughtful idea to provide some comforts of home to children who are in transition. Hopefully one day soon, the recipients will be in their own residence using these items that helped them through a challenging moment in their life and reminding them of their own inner strength.

Thank you to everyone who donated pajama's and books. We appreciate all the students who made these special blankets. By reaching out to help others, the students remind us that no one is ever alone. This truly is the magic of Christmas.
