

Sea Turtle Recovery

The 8th-grade Kaleidoscope has been working hard towards this year's service project which will support the nonprofit organization Sea Turtle Recovery, New Jersey's first long term rehabilitation center for sick and injured sea turtles. The students will be sharing the message about the plight of sea turtles with the junior high science classes and are transforming the upper level of E-wing into an undersea display.

The Sea Turtle Recovery "Stamp-ede" will take place from March 6 to March 13 through 7th and 8th grade science classes. Classes will be encouraged to bring in postage stamps that will help Sea Turtle Recovery in their outreach efforts. Kaleidoscope students are proud to partner with Sea Turtle Recovery and share their work.
