

Smorgasbord

On May 16, the KRHS Junior High School Student Council invited the teachers and staff to a thank you “tea.” Expecting tea and desserts, I was surprised by a very long table covered in all types of delicious foods. There was hot food, huge sandwiches, fruit, vegetables, cheese platters, and desserts. Make no mistake about it, this was a buffet!

The Junior High Student Council raised money through activity nights to help fund this special occasion. They plan the menu. They purchase some foods and others were homemade. One student made homemade truffles that did not last long! Perhaps we have a future confiseur or pastry chef in our midst!

The students started the event by thanking the faculty and staff. They invited everyone to come up and enjoy. The Student Council served the food as everyone went through the line. The line was long, but it gave people the opportunity to have a conversation with their colleagues. Good food, good friends, and appreciation made for a special moment.

The student Council members gave each person a ticket. Then they randomly selected two names. Those two staff members also went home with a plant.

Thank you to the Junior High Student Council for a delightful and delectable afternoon.
