

## Tis the Season of Giving

The best part of the holidays is giving someone something special they have been wishing for. Each year, Kitattinny Regional High School InterAct club joins with Project Self-Sufficiency to collect presents to share Christmas joy with other children. After all, it is not about what we receive this time of year, it is about the pleasure we feel knowing someone special experienced that Christmas morning delight unwrapping a present in festive holiday wrap and shiny bow with their name upon the gift tag.

The KRHS Junior High Student Council also lent a hand to this annual holiday tradition. This year over two hundred items were collected and half were provided by the student council.

Thank you to all of Santa's elves for participating in this year's collection.
