

## ALTERNATIVE EDUCATION PROGRAMS

---

The Board endeavors to provide an educational program adjusted to the needs of the individual child within the financial means of the district. Grouping enables a more efficient use of staff in meeting these needs. Program adaptations provide another means of using staff efficiently and effectively to meet the needs of many children. When the needs of special individuals or groups cannot be met through adaptation or independent study, the superintendent shall investigate and propose to the Board for approval alternative programs and facilities.

The Board of Education recognizes that the active engagement of each pupil is a primary requisite for sound teaching and learning to take place. When a child is unable to benefit from the educational program the Board shall make a determination of the student's risk for school failure and a decision regarding the student's placement in an alternative education program. For general education students the determination shall be based on the following, including but not limited to:

- A. The student's academic, health and behavioral records, including the student's IPP, if one has been developed and the results of available testing, assessment or evaluation of the student;
- B. Consultation with and notice to the student's parent/guardian; and
- C. Information provided by the school-based multidisciplinary team responsible to provide intervention and referral services (see Board policy 6164.1 Intervention and Referral Services),

Decisions regarding the placement of a student with a disability in an alternative education program, shall be based on the recommendation of the child study team and consistent with the student's individualized education program (IEP).

### Alternative Education Programs

Alternative education programs shall be approved by the Commissioner of Education. Each alternative education program shall fulfill the program criteria that are specified in N.J.A.C. 6A:16-9.2 including but not limited to:

- A. A maximum student-teacher ratio of 12:1 for high school programs;
- B. A maximum student-teacher ratio of 10:1 for middle school programs;
- C. An Individualized Program Plan (IPP) shall be developed for each general education student enrolled in the program; and
- D. For students with disabilities the alternate education program shall be consistent with the student's Individualized Education Program (IEP).

### Individualized Program Plan (IPP)

The IPP shall be developed in consultation with the student's parent and the receiving school district, or an alternative education program within a State agency, public college operated program or department-approved school approved by the Commissioner of Education, as appropriate. The IPP shall:

- A. Be developed by a multidisciplinary team of professionals with knowledge of the student's educational, behavioral, emotional, social and health needs;
- B. Identify the appropriate instructional and support services for addressing the student's identified needs;

## ALTERNATIVE EDUCATION PROGRAMS

---

- C. Be developed in accordance with the format prescribed by the Commissioner of Education and implemented within 30 calendar days of the student's placement in the alternative education program but need not, be developed prior to the student's placement.

The multidisciplinary team that reviews the IPP shall include district staff and staff from the alternative education program who have knowledge of the student's educational, behavioral, emotional, social and health needs.

The multidisciplinary team shall review and, as appropriate, revise the IPP prior to the completion of the student's anticipated enrollment in the alternative education program or prior to the end of the school year, whichever occurs first. Additionally the multidisciplinary team may review and revise the IPP, as needed, at any time during the student's enrollment in the alternative education program.

The student's parent shall be advised of revisions to the IPP.

### Home Schooling

At this time the Kittatinny Regional School District Board of Education policy prohibits participation in co-curricular and interscholastic athletic programs for home-schooled students. This policy will be reviewed annually by the members of the Board of Education.

The Board acknowledges the right of parents/guardians to educate their children at home. The Board is not required by law to allow a resident child educated elsewhere than at school to participate in the regular school curriculum or in extracurricular or sports activities.

### Required Services to Home Schooled Students

When a student of this district is home schooled, the district shall:

- A. Provide payment for tuition when a student is enrolled in a shared-time vocational school program. Once a resident student is enrolled in a shared-time vocational school program the student becomes a public school student;
- B. Review any written request for a special education evaluation and if warranted conduct an evaluation as described in Board policy 6171.4 Special Education and in accordance with the federal special education law, Individuals with Disabilities Education Act (P.L. 108-446 §612).

If the child is eligible for special education and related services, the district shall make a free, appropriate public education available only if the child enrolls in the district. If the child does not enroll in the district, but the district chooses to provide services, the district will develop a plan for the services to be provided.

### Potential Drop-outs

While statute requires attendance of each pupil only until 16 years of age, it is in the best interests of both pupils and the community that they complete the educational program that will equip them with skills and increase their chances for a successful and fulfilling life beyond the schools. The board directs that whenever a pupil wishes to withdraw, or has been identified as a potential withdrawal, effort should be made to determine the underlying reason and the re-sources of the district should be used to assist the pupil in reaching his/her career goals. No pupil under the age of 18 years will be permitted to withdraw without the written consent of a parent/guardian.

The superintendent shall develop procedures for withdraw from school which:

- A. Make counseling services available to any pupil who wishes to withdraw;

**ALTERNATIVE EDUCATION PROGRAMS**

- B. Make every effort to satisfy the pupil's future educational needs;
- C. Help the pupil define his/her own educational life goals and help plan the realization of those goals;
- D. Inform the pupil of the high school equivalency program;
- E. Point out to the pupil the opportunities available in the armed forces.

Removal for Weapons Offenses or Assault

Any pupil who is convicted or found to be delinquent for the following offenses shall be immediately removed by the principal from the district's regular education program for a period of not less than one calendar year and placed in an alternative education school or program pending a hearing before the Board of Education to remove the pupil:

- A. Possessing a firearm on any school property, on a school bus, or at a school-sponsored function; or
- B. Committing a crime while possessing a firearm.

The chief school administrator shall determine at the end of the year whether the pupil is to return to the district's regular education program, in accordance with procedures established by the Commissioner of Education.

Any pupil who assaults a pupil, teacher, administrator, Board member, or other district employee with a weapon other than a firearm on school property, on a school bus, or at a school-sponsored function must be immediately removed from the school's regular education program and placed in an alternative school or program, pending a hearing before the Board. The chief school administrator shall determine when the child shall return to the regular education program.
